Attachment to Contact Report dated June 9, 1952 between R. OSEY and L.M.G.

Section #2

1. That he was seeing Kraxler and was to get the names of the four group leaders and Full Fragebogens as soon as possible. I definitely instructed him that for the time being that none of these four men should be aware of each other and that they were to operate independently with Kraxler. Each group that is being formed is to be completely separate.
2. RNM OSEY says that he has some friends that fought counter partisan warfare in Russia, Jugoslavia and Finland. These men are possible contacts and I have instructed agent to turn in their names and their qualifications at the next meeting.
3. Agent stated that he was attempting to find men of the same caliber as Kraxler to set up other groups in the Ruhr and the North area and thought that maybe he could use some of these new men spoken of above.
4. Stated that he should have some sort of a decision on the Reportagekoffer at the end of June. I said that I would see what could be done.
5. Stated that he would like to go to Berlin in July to see the people there and start people into the East Zone recruiting. I told agent that name check must be made before we could use these people but that these would be only as much as was in existing records.
6. What is the story on using De Cravacoeur? This is man that lives in Denmark. X
7. Stated that he has written BUSCHNER and this man is waiting for the "Flying Teacher". ✓
8. States that he would like to have a passport in the name of ULRICH ROST. I said that this would be hard but that I would see what could be done. ?
9. What about the assets in Finland? Here is an area with an agent net almost completely set up but which is dormant. He feels that there is a great set of chances in this area... (circled)
10. He stated that he had chances to make contacts in Northern Tirol, Italy and in Jugoslavia. I told him to go ahead as I wanted to get all the people for contacts to use in DTREYOND.
11. Agent was given a pencil gun by [] and would like shells for it. I stated that I would see what could be done...
